

2017 Approved/Licensed 2 1/4" Bats

Updated 11/07/2016

The following DYB licensed 2 1/4" diameter bats are approved for the 2017 baseball season in all divisions of Dixie Youth Baseball.

Important: This is a list of licensed metal and composite bats, not a list of all possible bats that could be used. (Older aluminum/metal alloy bats may not be on this list but can be used if they have "Approved for Play in Dixie Youth Baseball" stamped on the bat.) **All older 2 1/4" non-wood bats which do not have a manufacture date stamped on the barrel of the bat and are listed on the approved bat listing below are approved for league and tournament play if they are clearly marked "Approved for Play in Dixie Youth Baseball" and meet the specifications of DYB Rule 1.10.** Any bat, even those appearing on this list, must meet all the specifications of Rule 1.10 for the particular division of play, including specifications regarding length, weight, diameter, markings, etc. Newly manufactured bats will have stamped on the barrel of the bat: **Approved for Play in Dixie Youth Baseball**, BPF 1.15 and Year (ex. 2015) – Note: T-Ball bats may be used to hit balls off a stationery tee ONLY.

Dixie Youth Baseball reserves the right to add or delete bats on this approved listing.
